KICKSTARTER REWARDS LIST

## FOREWORDS

Please find in this presentation the latest research for all Kickstarter rewards!

Remember that as research, they do represent what we are aiming at in terms of quality, mood and graphics, but the following images are **not** in-game assets so the final result may vary.

Some rewards like the Stone Bust or the alternate Lobby have been left out because they have been shown before or are still under design.

We will come back to you when we have in-game versions of the rewards in all their Unreal Engine 5 beauty.

Hope you enjoy!
